CUT-IT PLEXI PROTECT

Transparent dashboard protector

The Cut-it Plexi Protect is designed to have a better control during cutting of windshields.

The shape does fit any corner and the thickness allows also to fit in narrow spaces.

Thanks to its transparency, the user has always an overview where his wire is located during the cutting process.

It perfectly protects dashboard, head liners or pillar covers from scratching.

Technical Specs:

Thickness: 1.2mm
Width: 225mm
Length: 205mm
