

DURADRILL

Tungsten Carbide Drill Bits

DURADRILL

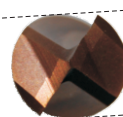

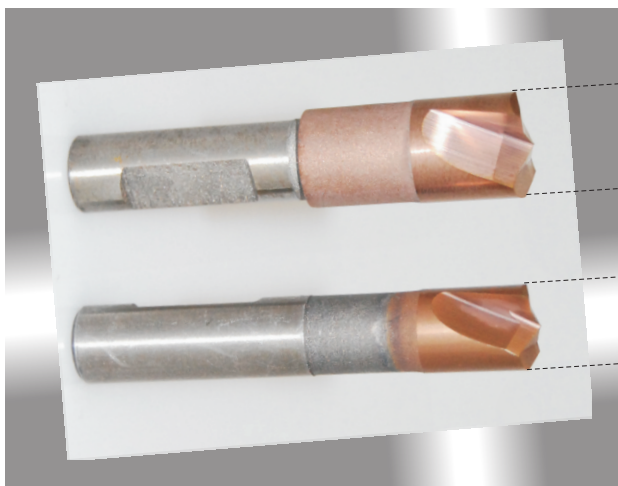

The Duradrills have been designed to drill ultra high strength steels. These special tungsten carbide drills have a high end coating which works perfect on welding spots.

Technical specs.:

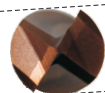

- Hardness : 3100 HV (Vickers)
- Heat protection : 1100°C
- Lifetime : 80 - 120 Spotweld drills

The drills can be used afterwards for 1000 drills on standard sheet metal.

Lifetime is only guaranteed at use with Fastdrill machine.

Dia. 10mm

Dia. 8mm
