

# PLASTO-STAPLER

*Cordless Hot Stapler*

Plasto-Stapler is a fast and easy system to repair all kind of plastic parts.

The Plasto-Stapler is battery charged and therefore independent from a power plug. Fully charged the unit can weld up to 300 clips.

The operator can choose between two power options. Standard power is at 15W and the lower power is set at 11W which can be used on difficult spaces or thin plastic.

The different shaped clips are made of stainless steel.

### Technical Specs:

Power	:	15W / 11W
Volt Output	:	2.4V
Welding time	:	ca. 300 Clips at 15W
Charger	:	12V DC / 0.5 Amp
