POWER FIBER

Ultra strong cutting fiber wire

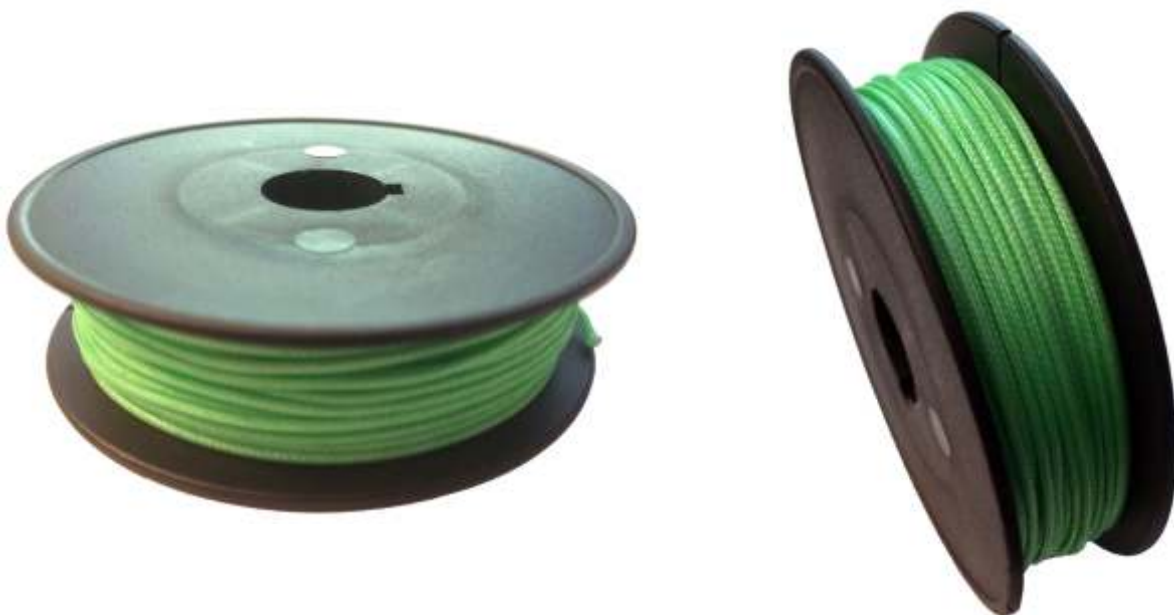

The Power Fiber is the result of a long R&D and testing phase of the past month. The special fibers in combination with the plating construction and surface treatment result in a thin and ultra strong cutting fiber wire. It can be used with any windshield cutting system to cut out windows around the car.

Thanks to the neon green color it is very good visible at any stage of the cutting progress.

Technical Specs

Material	: Textile Fibers
Diameter	: 1mm +/- 2%
Length	: 25m
Tensile strenght	: 2.0 kN / 200kg
