## QUICK-FIT 4496

*Flexible pliers for quick connectors*

The flexible Quick-Fit pliers are designed to open quick connectors.

On engines more and more the hose clamps are replaced by quick connectors made out of plastic. Those are very difficult to open after a while due to pollution.

For example: ARaymond

With the Quick-Fit pliers the user is able to open and remove those quick connectors even in very difficult to reach areas without damaging them.

### Technical Specs

Material : Xc48 Steel hardened

Weight : 500g

Length : 250mm

Cable length : 590mm

Length with head : 670mm
